Re: Naval Weapons Industrial Reserve Plant
Calverton, New York

Dear Mr. Kern:

This is in reference to the United States Environmental Protection Agency's (EPA) letters dated December 14 and 19, 1989 (copies enclosed) concerning a Site Inspection (SI) which must be performed at the Naval Weapons Industrial Plant, Calverton, New York.

As you are aware, EPA is required to evaluate all facilities listed on the Federal Agency Hazardous Waste Compliance Docket ("docket") for listing on the National Priorities List (NPL) utilizing the Hazardous Ranking System (HRS), if warranted, in accordance with the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. Section 9620(c), as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) Pub. Law 99-499. EPA believes that an adequate period of time has elapsed (1 year) for completion of your facility's SI. Furthermore, in order for EPA to complete its evaluation of the subject facility, listed on the docket on February 12, 1988, we must receive the SI in the near future.

We request that you submit one of the following within thirty (30) days of receipt of this letter:

- 1) the SI, if completed, or
- 2) a letter indicating the status of the SI and the approximate date we can expect to receive the completed report

Please send the above information to:
